A wine cellar that can be **used according to your needs:**

- in a **polyvalent mode** for service or conservation (different temperature zones)
- in a **conservation mode** thanks to the activation of the fan (one single temperature zone)

A **modern design** thanks to its inside LED display.

This cellar is equipped with **specific sliding shelves** to **highlight** your bottles in **horizontal position**.

- **Better labels visibility**
- **Easy access** to your bottles

Enhanced protection through the **winter system**.

Eco-responsibility

Our products are manufactured in compliance with European environmental rules. Especially, refrigerant fluid (R600a) doesn't reject neither CFC nor HFC and respect environment.

Energy consumption is calculated based on the result obtained for 24h in standard test conditions. The actual energy consumption depends on the conditions of use and location of the device.

This equipment is designed to be used in an ambient temperature between 18°-43°C.

This appliance is intended to be used exclusively for the storage of wine.

Alcohol abuse is dangerous for health, please consume in moderation.

*Capacity given as an indication with 75cl Bordeaux traditional type bottles and measured with 12 shelves. Adding shelves reduce considerably the total capacity.
